Emory College Online

You can do all these things and also take a summer course online. Classes fill quickly. Registration opens February 9th. For more info, including class schedules visit http://summerprograms.emory.edu/academics/online.

What is an Emory College Online (ECO) summer course?

- 6 week long Emory College courses offered during Summer Sessions I or II
- Courses are taught entirely online
- 3-4 hours/week of synchronous* meeting times (times noted for each course in OPUS)
- 15-20 hours/week of coursework including synchronous* and asynchronous* content and assignments

What does it take to be successful in an ECO course?

- Self-motivated learner with strong time management skills
- Access to required technology (personal laptop or desktop, headphones, webcam, and reliable high-speed internet connection)
- Sufficient time in summer schedule to devote to coursework
- Complete the ECO online orientation module through Canvas prior to the start of the course

*Synchronous meetings: These are the times (3-4 hours/week) when the professor and all enrolled students will log into a virtual meeting space at a set time to have class together
*Asynchronous content: This is the online course content that will access/review/complete on your own

For more info, including class schedules, visit summerprograms.emory.edu/academics/online.
